

Lombrico®

GLOBAL PLUS

Correct nutritional
contribution to the crop

Perfectly balanced
nutrition

Use it as the basis
of your programs

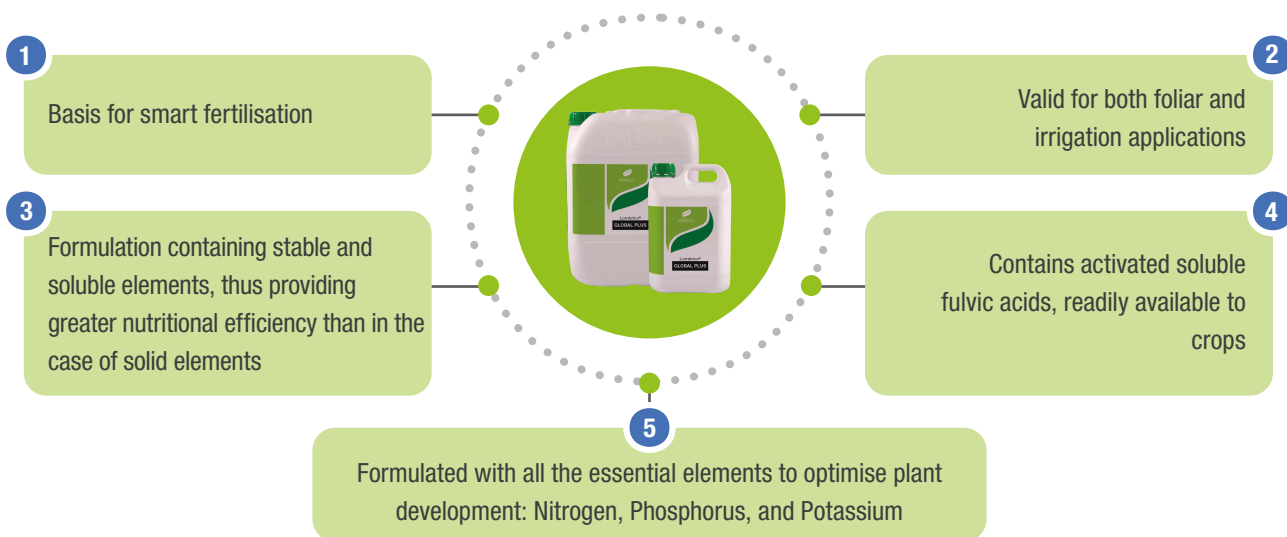

The most complete product on which to base your
intelligent fertilization program through the use of
liquid fertilization.

Lombrico® GLOBAL PLUS is a liquid organo-mineral fertiliser with a high NPK concentration and a combo of essential microelements designed to offer your crops complete and balanced nutrition. In line with the European Commission's Farm to Fork strategy, it allows, among others, to:

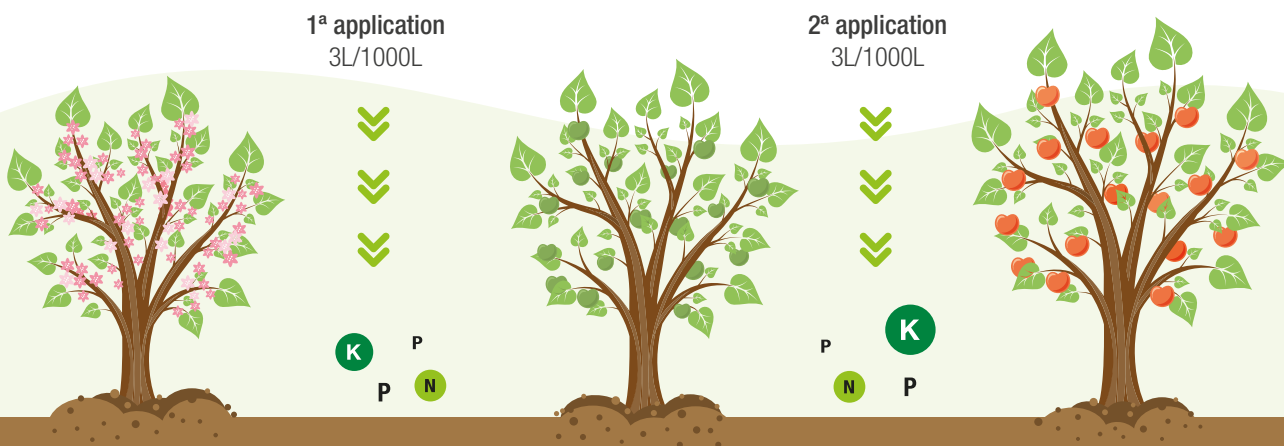

- ✓ Optimise the use of fertilisers and water resources
- ✓ Ensure that all the nutrition provided is used by the crop
- ✓ Optimise dosages
- ✓ Reduce costs
