Brotolom® N-DUX is a state-of-the-art defence inducer developed to activate the plant's natural defence mechanisms, providing 100% natural protection against pathogens.

The formulation contains a combination of inducing substances chosen for their high efficiency and synergy: vegetal extracts with numerous bioactive molecules such as bioflavonoids, polyphenols, reducing sugars, vitamins, free L-amino acids, polysaccharides, etc. chosen for their high antioxidant, biostimulant, and regenerative power that helps to control external fungi such as powdery mildew.

TRIAL

N-DUX against Podosphaera Xanthii in Cucumis melo.

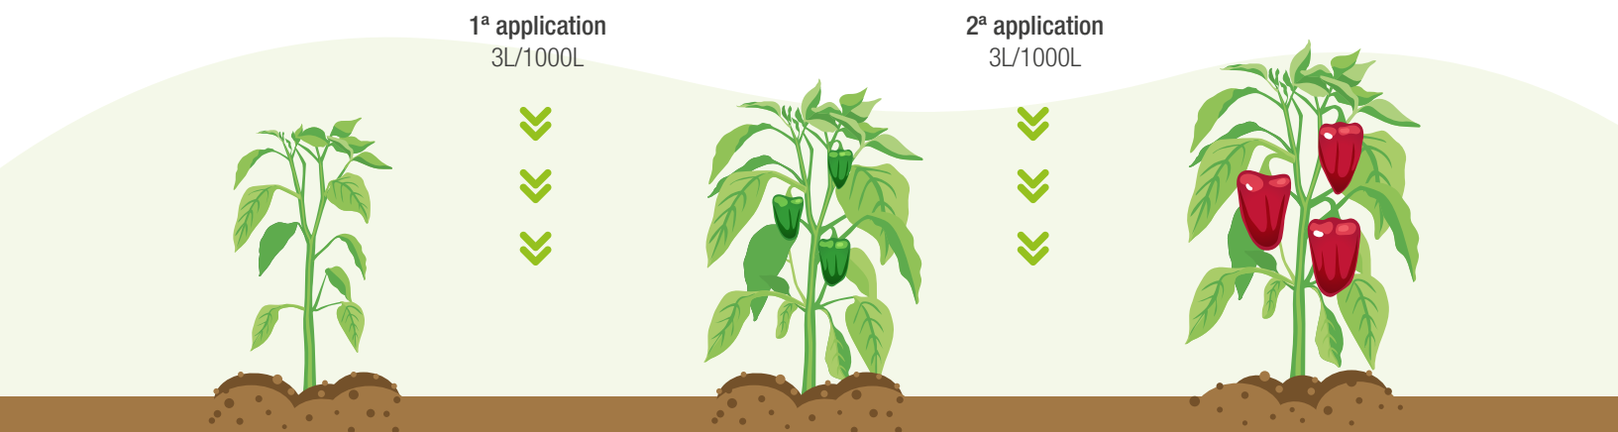

BENEFITS

- Controls External Fungi (Powdery Mildew).
- Synthesises plant resistance molecules.
- Boosts the plant's immune system.
- Increases peroxidase and phenolic compound activity.
- Boosts the production of natural antimicrobial enzymes and phytoalexins.
- Increases Lignins and Suberins by strengthening cell walls.
